APOLLO 11

70-mm PHOTOGRAPHIC CATALOG

NATIONAL SPACE SCIENCE DATA CENTER  
NATIONAL AERONAUTICS AND SPACE ADMINISTRATION  
GREENBELT, MARYLAND 20771

APRIL 1970

## INTRODUCTION

This catalog contains proof prints of virtually all the 70-mm photography exposed during the Apollo 11 mission.\* The photography has been sorted by magazine and by frame number. For example, in AS11-40-5903, AS11 identifies the photography as being part of the Apollo 11 mission, 40 identifies the magazine number, and 5903 identifies the actual frame. This numbering scheme is being used throughout all Apollo missions.

This document, as part of an integrated package prepared by the National Space Science Data Center (NSSDC), is designed to be used in conjunction with the section on 70-mm photography in "Apollo 11 Photography: 70-mm, 16-mm, and 35-mm Frame Index," which provides pertinent information on each frame, and with "Apollo Mission 11 Lunar Photography Indexes," which makes it possible to locate the area covered by each frame.

The Data Center wishes to thank Mr. James H. Sasser, Chief, Mapping Sciences Laboratory, Manned Spacecraft Center, for providing the original layout pages from which this catalog has been prepared. The work in preparing these pages represents the combined efforts of Mr. Robert Musgrove, Mr. Gary Gutschewski, and Mr. Andrew Patteson, Mapping Sciences Laboratory, and the personnel of Lockheed Electronics Company/Mapping Sciences Department. The document preparation effort at NSSDC was under the direction of Mr. Arthur T. Anderson.

---

\* For those frames that were not properly exposed, prints have not been produced from the original film. In this document these frames have been labeled "blank."
